- HTML5
- CSS3
- JavaScript
- Bootstrap
- React.js
- Tailwind CSS
- Material UI
- API Integration
- Unit Testing
- Agile Methodologies
- GitHub
- VS Code
- Cursor AI
- Responsive Web Design
- Shopify & E-commerce
- Product Listing & Management
- Shopify Liquid
- Shopify Theme Customization
- Google Search Console
- E-commerce Management

Experience

Web Developer & E-commerce Executive | 06/2026 – Present

Walrus – Yes India Can | Tirupur, Tamil Nadu | On-site

- Develop and maintain responsive Shopify e-commerce websites.
- Customize Shopify themes using Liquid, HTML, CSS, and JavaScript.
- Manage product listings, collections, pricing, images, and inventory updates.
- Configure checkout, payment, and shipping workflows, and manage technical SEO and Google Search Console indexing.
- Publish Shopify blog content and troubleshoot website/storefront issues.

PRAVOKHA – Founder & Developer | Multi-Vendor E-commerce Platform | 08/2025 – 03/2026

- Founded and developed PRAVOKHA, a multi-vendor e-commerce platform supporting Super Admin, Admin, Seller, and Customer roles.
- Built core marketplace workflows including seller management, product listings, product pages, cart, checkout, orders, and user management.
- Implemented separate role-based dashboards and permissions for marketplace operations.
- Developed the platform using AI-assisted development workflows, focusing on responsive design, usability, and scalable e-commerce architecture.

Junior Frontend Developer | 09/2024 – 07/2025

ByClarity Tech | Remote

- Collaborated remotely on multiple client-facing and internal tools using React.js, Tailwind CSS, and Material UI (MUI).
- Designed and developed responsive, accessible user interfaces with reusable components and seamless API integrations.
- Actively participated in Agile sprint ceremonies and contributed to UI/UX discussions, feature estimations, and reviews.
- Performed unit testing and implemented performance optimizations to improve load times and rendering efficiency.
- Followed clean code principles and version control best practices using Git and GitHub.

Internship Experience

Front-End Developer Intern | 06/2024 – 08/2024

ParkQwik | Remote

- Built a mobile-responsive web version of the ParkQwik app using React.js and CSS, aligned with mobile-first UI principles.
- Translated design wireframes into reusable React components optimized for smartphones and tablets.
- Strengthened practical skills in responsive design, component-based architecture, and cross-device UI development.

Projects

- CCO – Central Coast Orthodontics (USA)
- Developed a modern, responsive front-end for a dental client using React.js and Tailwind CSS.
- Ensured pixel-perfect implementation aligned with brand guidelines and optimized for all devices.
- Integrated interactive UI components and tested across multiple browsers for compatibility.
- Focused on clean UX design, accessibility, and mobile optimization.
- AI Agents Showcase
- Designed and deployed an interactive AI agent UI demo using React.
- Showcased conversational AI bots with real-time input/output and clean UI flow.
- Berry Dial – Dental Appointment Booking App
- Developed intuitive booking screens with form validation and responsive layouts.
- Implemented navigation, appointment selection, and confirmation logic.
- Enhanced usability and reduced bounce rate through performance tweaks.
- Berry Dial – Hotel Booking UI.

- Built mobile-first hotel booking pages with Tailwind CSS and custom layouts.
- Integrated dynamic content flow with focus on user experience and clarity.

Personal Project (Enhanced for Learning & Practice)

- Portfolio React MUI https://vasanthakumar-jpg.github.io/portfolio-mui/
- Designed and developed a fully responsive, modern personal portfolio using React and Material-UI, showcasing professional projects, skills, and experience.
- Integrated Framer Motion animations for smooth scroll-based transitions and interactive UI effects, enhancing user engagement and visual appeal.
- Implemented dark/light theme switching and responsive design to ensure consistent performance across devices and screen sizes.
- Portfolio HTML CSS JS https://vasanthakumar-jpg.github.io/Updated-Portfolio/
- Designed and built a fully responsive personal portfolio using HTML, CSS, JavaScript, and Bootstrap.
- Showcases key projects, skills, and contact information in a structured, modern layout.
- Designed and developed a fully responsive social media user interface using React.js, Tailwind CSS, and React Router.
- Built a pizza ordering mobile app UI using Readdy AI, utilizing prompt-based development to quickly generate layout and component structure.

Professional Certifications

- Certified in Rajalakshmi Edureka Immersive Python Bootcamp (Premium) Foundation level from January 2024
- Certified in Smart Cliff (Front End Development) during August 2022

Achievements

- Received appreciation from Team Leader and Project Leads for delivering clean, maintainable, and scalable code by aligning UI styling with the centralized theme structure.
- Recognized for proactively following best practices and contributing to code quality improvements across the project.

Academic Qualifications

Qualification	School/college	Board/university	Year of passing	Percentage/CGPA
